WORK EXPERIENCE

Harbinger System Pvt Ltd

Senior Software Test Engineer

Nov 28 2022 - Dec 14 2024

Roles and Responsibilities:

Analyzed project requirements by collaborating with the Business Analyst (BA) team to ensure a clear understanding of client needs.

Communicated with the development team to seek clarification on defects and ensure alignment on issue resolution.

Authored effective and optimized test cases, ensuring thorough execution to maintain software quality.

Actively participated in daily and weekly status calls with the client to provide updates and gather feedback.

Identified test cases suitable for automation, optimizing testing efficiency.

Performed web automation using Selenium WebDriver in Eclipse, employing Data-Driven Frameworks for script execution.

Conducted mobile automation testing for Android and iOS platforms using Katalon Studio.

Designed and implemented Page Object Model (POM) classes and Test Classes for automation frameworks.

Executed functional, regression, sanity, UI, and end-to-end testing, ensuring comprehensive test coverage.

Additional Contributions:

Enhanced software quality through manual and automation testing processes using Selenium WebDriver with Java and Katalon studio.

Ensured seamless product delivery by performing meticulous end-to-end testing manually.

Atos India Pvt. Ltd

QA Engineer

Sept 25 2019 - Nov 28 2022

Roles and Responsibilities:

Designed and executed comprehensive test cases, and test scripts for functional, regression, and sanity testing.

Created and executed test cases based on user stories and technical documentation.

Participated in functional and regression testing of web applications, ensuring feature reliability.

Identified, tracked, and resolved software defects using defect tracking tools like JIRA.

Collaborated with developers and product managers to ensure thorough understanding of requirements and test coverage.

Conducted User Acceptance Testing (UAT) to validate functionality before deployment.

Reduced defect leakage through detailed test documentation and rigorous QA processes.

EDUCATION

Savitribai Phule Pune University

Bachelor Engineer - 6.33

June 2016 - Nov 2019

PROJECT

Project:**Domain :** Digital Marketing**Client :** Erik Rind, US**Project Overview :**

Daily Social Updates Facilitates regular updates and interactions to keep users engaged.

Post Creation Enables users to create and share content seamlessly across the platform.

Advertisements Offers tools for targeted advertising to maximize reach and impact.

Wallet Integration Allows users to manage their digital funds for various transactions.

Donations Simplifies the process of making and receiving charitable contributions.

Banking Transactions Supports secure and efficient financial transactions directly through the platform.

Strategic Solution Provides additional tools and features to address specific user needs and enhance their experience.

TMS (Transaction Management System)

Sept 2019 - Nov 2022

Project:**Domain :** Investment Banking.**Client :** Stockto Trade Capital, UK**Project Overview :**

The project provides corporate, financial, and sponsor clients with expert advice, innovative solutions, and exceptional execution for a wide range of transactions, from simple to complex.
